Origin	Thailand	

Notes

The OCSB row is only the legal floor of the special-type sugar class. Colour, pol and moisture for any offer are the producer's specification, confirmed on the lot's certificate of analysis.

Limits are shown with their basis: an official specification, exchange contract terms or a producer's published specification. Each lot's actual values are reported on its Certificate of Analysis, issued with every lot.

Packaging: 1 kg consumer packs. The format for your order is confirmed in the quotation.

To confirm the current specification for your order, request a quotation at anutida.com/request-quote/ or email sales@anutida.com.
